PAVE THE WAY TO WORLD PEACE: WAVE THE BANNER OF INNER HARMONY

The Mission: People Against Violent Energies (PAVE) and Women Against Violent Energies (WAVE) are the offsprings of MOM's Peace Initiative that emerged in Spring 2001. The goal of both initiatives is to teach individuals and community members at large the principles and practices to cultivate inner harmony. This Initiative intends to broadcast the collective invisible expression of loving embrace and compassion through the universal sound waves so that the globules and prana from which all life is formed can be invoked to influence the global energy of awareness, love and compassion in every crevice of each mind and heart and in every corner of the Earth.

Together, we do have the knowledge and power to manifest Peace on Earth.

PAVE and WAVE Initiatives are about doing inner work through nonharmful thought, mindful action and prayer.
